

BC GAME JAM

SPONSORSHIP OPPORTUNITIES

WHO WE ARE

We are BUS; a student-run organization with the goal of promoting game development to students in British Columbia. We connect and work with various student groups to provide better educational resources and opportunities for their members.

We have grown from a joint event by student game development clubs to an organization with the knowledge, structure, and experience to bring students together in ways others can't.

ABOUT THE BC GAME JAM

A game jam is an event that unites game developers across multiple disciplines (story writers, designers, animators, programmers etc.) to develop games within a limited time frame.

What differentiates the BC Game Jam from other similar events is the focus on inviting high-school and post-secondary students to participate. We provide our participants support, mentorship, and the opportunity to showcase their games at the end of the event to create a true learning experience.

WHY YOU SHOULD SPONSOR US

We invite you to sponsor the BC Game Jam through monetary or in-kind support.

By providing your support, expertise, and passion, we can inspire the next generation of game developers.

This would be an opportunity to showcase your organization to passionate students on their way to join the games industry.
